3.2.2 Number of workshops/seminars conducted on Research Methodology, Intellectual Property Rights (IPR) and entrepreneurship during the year 2020-21

Year	Name of the workshop/ seminar	Number of Participants	Date From – To
2020-21	Guest Lecture on Research and Methodology	29	16/06/2021– 16/06/2021
2020-21	Expert Lecture on Qualities for Entrepreneurship.	32	7/06/2021– 7/06/2021
2020-21	Expert Lecture on TQM (Total Quality Management).	31	2/06/2021– 2/06/2021
2020-21	Expert Lecture on Carrier Opportunities in SAP.	35	2/12/2020 – 2/12/2020
2020-21	Guest Lecture on Hydraulics & Pneumatics .	28	9/11/2020 – 9/11/2020
2020-21	Expert Lecture on Web Designing .	24	26/03/2021– 26/03/2021
2020-21	Expert Lecture on Cyber Security.	34	25/09/2020 –25/09/2020
2020-21	Expert Lecture on Carrier in Software Testing	28	22/11/2020 – 22/11/2020
2020-21	Expert Lecture on Carrier in Networking .	29	29/11/2020 – 29/11/2020
2020-21	Emerging Trends in Computer Science	24	17/03/2021– 17/03/2021
2020-21	Expert Lecture on Electrical Installation and Plumbing.	25	23/11/2020 – 23/11/2020
2020-21	Expert Lecture on Programable Logic controller.	40	20/03/2021 – 20/03/2021
2020-21	Expert Lecture on Electrical Relays	28	13/02/2021– 13/2/2021
2020-21	Guest Lecture on MATLAB & its Applications.	20	10/11/2020 – 10/11/2020
2020-21	Guest lecture on Basics of Electrical Engineering.	30	19/12/2020 – 19/12/2020
2020-21	Expert Lecture on Concrete Technology -Mix Design.	22	08/09/2020 – 8/09/2020
2020-21	Guest Lecture on Structural Design -Structural Failures .	28	15/11/2020 – 15/11/2020
2020-21	Expert Lecture on Building Layout.	32	19/01/2021 – 19/01/2021
2020-21	Expert Lecture on Advance Mix Design.	18	16/02/2021 – 16/02/2021
2020-21	Guest Lecture on Long Wall and Short Wall method.	32	20/03/2021 – 20/03/2021

researchers during the course of studying the research problem. Research methodology involves various steps generally adopted by a researcher in studying the research problem along with the logic behind them. He also covered the deductive and inductive approaches adopted in research. In Deductive reasoning thinking proceeds from general assumptions to specific applications, while Inductive reasoning is concluding about events (general) based on information generated through many individual and direct observations. He also discussed the steps to publish research papers, the content, and how to present research in paper. Total of 36 students of Final Year attended the program. Prof.B.S.Gawai and Prof.N.R.Ghodke organized this event under the guidance of Prof. S. D. Kurhekar, HOD of Mechanical Engineering department.

Post Doc Fellow,

Concordia University Canada.

Subject: - Invitation for Online Guest Lecture on Research and Methodology
in Mechanical Engineering Department, S.E.C. Washim.

Respected sir,

As mentioned above we would like to invite you for Online Guest lecture for mechanical engineering students in our College, on the topic Research and Methodology for improvement of our student's knowledge in this subject. We are pleased to invite you as a Guest Lecturer for Mechanical Engineering students on 16/06/2021. Kindly convey your willingness and availability on above mentioned date.

We highly appreciate a favorable response.

Thanking you!

Respected sir,

Sanmati Engineering College, Washim, organizes Expert Lecture series for better improvement of our students. We are pleased to invite you to deliver a lecture on your expertise and experience for engineering students of the Mechanical Engineering department, so that they will gain extra knowledge about current scenario in Manufacturing industries.

Kindly convey your willingness and suitability of dates.

We highly appreciate a favorable response.

Thanking You

EVENT REPORT

Date:

(2020-21)

Name of Department	Mechanical Engineering
Name of Event Organized	Online Guest Lecture
Title of the Event	HYDRAULICS AND PNEUMATICS
Date of Event Organized	9 / 11 / 2020
Name of the Coordinator of the Event	Prof. B.S.Gawai
Number of Participant Student	28
Name of the Expert	Prof. Sachin B. Lahane
Contact No. & Address of the Expert	7385679860 CSMSS, Chh. Shahu College of Engineering Aurangabad, Maharashtra.
Description of the Event	The Subject expert is from CSMSS, Chh. Shahu College of Engineering Primarily located in Aurangabad. Prof. S. B. Lahane, M.E. (Thermal Engg.) (Ph.D. Pursuing) has a vast expertise in the field of Hydraulics and Pneumatics. Prof. S. B. Lahane started his presentation explaining about the industry we use three methods for transmitting power from one point to another; Mechanical transmission is through shafts, gears, chains, belts, etc. Electrical transmission is through wires, transformers, etc. Fluid power is through liquids or gas in a confined space. Fluid power is the technology that deals with the generation, control and transmission of forces and

movement of mechanical element or system with the use of pressurized fluids in a confined system. Both liquids and gases are considered fluids. Fluid power system includes a hydraulic system and a pneumatic system. Oil hydraulic employs pressurized liquid petroleum oils and synthetic oils, and pneumatic employs compressed air that is released to the atmosphere after performing the work.

Oil hydraulics stands out as the prime moving force in machinery and equipment designed to handle medium to heavy loads. In the early stages of industrial development, mechanical linkages were used along with prime movers such as electrical motors and engines for handling loads. But the mechanical efficiency of linkages was very low and the linkages often failed under critical loading conditions. With the advent of fluid power technology and associated electronics and control, it is used in every industry now.

EVENT ORGANIZED REPORT

(2020-21)

Name of Department	Civil Engineering
Name of Event Organized	Expert Lecture (Online Mode)
Title Of the Event	Concrete Technology-Mix Design
Date of the Event	08/09/2020
Name of the coordinator of the event	Prof. K.R. Ghadge,
Class of the participant	Civil Engineering
No. of participant	22
Name of the expert with designation	Prof.P.R. Chopde.
Contact no and address of the expert	Padmashri Dr. V. B. Kolte College of Engineering Malkapur.
Objective of the event	<ul style="list-style-type: none">• Enable students select an appropriate mix design method.• Enable students to select ingredients for a concrete mixture and deciding on their proportion.
Outcome of the event	<ul style="list-style-type: none">• Ability to use structural codes and standards.• Ability to use appropriate mix design method.• Ability to select ingredients for a concrete mixture and deciding on their proportion.• Ability to determine admixtures and super plasticizers for the given concrete mix.

Subject: - Invitation for Online Guest Lecture on Concrete Technology –Mix Design
Civil Engineering Department, S.E.C. Washim.

Respected sir,

As mentioned above we would like to invite you for Online Guest lecture for Civil Engineering students in our College, on the topic "Concrete Technology –Mix Design" for improvement of our student's knowledge in this subject. We are pleased to invite you as a Guest Lecturer for Civil Engineering students on 08/09/2020. Kindly convey your willingness and availability on above mentioned date.

We highly appreciate a favorable response.

Thanking you!

EVENT ORGANIZED REPORT

Date 15/11/2020

(2020-21)

Name of Department	Civil Engineering
Name of Event Organized	Guest Lecture (OnlineMode)
Title Of the Event	Structural Design-Structural Failures
Date of the Event	15/11/2020
Name of the coordinator of the event	Prof. K.R. Ghadge.
Class of the participant	Civil Engineering
No. of participant	28
Name of the expert with designation	Prof.P.R. Chopde.
Contact no and address of the expert	Padmashri Dr. V. B. Kolte College of Engineering, Malkapur.
Objective of the event	<ul style="list-style-type: none"> Consistently and successfully apply fundamental Structural Engineering principles within their chosen engineering application area within the department (Civil Structures, Geotechnical, Computational Mechanics, Structural Health-Monitoring/Non-destructive Evaluation). To Understand Structural failure which refers to the loss of structural integrity, or the loss of load-carrying capacity in either a structural component or the structure itself.
Outcome of the event	<ul style="list-style-type: none"> An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics An ability to apply engineering design to apply uniform Structural integrity which is the ability of an item—either a structural component
